**meywalk® mk3**

Here is the brand-new mobility device meywalk® mk3. The up-to-date design and the incredibly easy operation makes the Meywalk mk3 a bit of a revolution for both the users as well as the carers.

*Patented design!*

In the development of meywalk® mk3 (pronounced "mark three") we have emphasized:

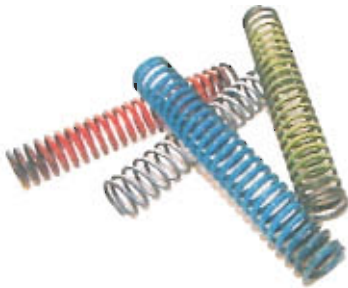

- That it must be easy to get in and out of the walker from a chair/wheelchair by using the unique swing bar system
- That the walker has a wide entrance to facilitate the placement of heavier users by means of mobile/ceiling lifts.
- That all often-used adjustments can be made without the use of tools!
- That a natural gait pattern and body posture is achieved
